

WHITE MUSTARD (*SINAPIS ALBA*)

SINUS

The advantages of SINUS

› White mustard is a very fast-growing annual crucifer with a deep taproot. The plant tolerates late sowing, is well suited as a greening and fall intercrop and has some importance as a forage and spice plant. Nematode resistant varieties are used to reduce nematodes in beet crop rotations.

Variety assessment of SINUS

› SINUS is permitted without the requirement of cultivation value.
